

INFOMAT - Materials Review  
SCBT-CENTREDOC

# INFOMAT Materials Review

## OUR SOLUTION

Introducing INFOMAT - Materials Review by SCBT-CENTREDOC, a monthly selection of patents and scientific articles tailored to professionals in the realm of materials science, manufacturing, and shaping methods relevant to watchmaking and microtechnology.

***Our mission is simple : to keep professionals informed and inspired within their field.***

### Content Overview

INFOMAT covers a spectrum of content, including updates from high impact journals (Nature Materials, Science, Advanced Materials, etc.), explorative book releases, in-depth scientific literature, and groundbreaking patents that redefine materials and their manufacturing methods.

### Exclusive Features

Subscribers gain access to the electronic version of the INFOMAT database, secured with confidential codes. For a seamless experience, complete articles can be directly ordered through the specialized «Documentation» service of SCBT-CENTREDOC.

### Why INFOMAT ?

INFOMAT is a vital tool for both maintaining and expanding expertise in materials and new technologies. Our Innovative Materials Technologies Insights empower professionals to navigate and thrive in the dynamic landscape of materials science.

### Fields Explored

From metals and ceramics to organic and composite materials, INFOMAT covers a diverse range of fields, including coatings, measurement and analysis methods, machining and shaping, assembly techniques and surface treatments.

### Tailored Solutions

In addition to regular updates, SCBT-CENTREDOC offers the flexibility of in-depth, one-off searches and custom monitoring on specific subjects upon request. This personalized approach ensures that INFOMAT aligns perfectly with the unique needs of our subscribers.
